

Repeater RP-11

- **Two-Way Radio Communication**
- **Dual Frequency Hopping**
- **Code Encryption**

The Repeater is designed to increase the effectiveness and versatility of the alarm system. It is a device that makes your system more powerful by increasing the maximum possible distance between the Main Unit and the Transmitters/Detectors. It is the ultimately most favored Wireless Alarm Accessory for large house owners.

The brand new introduction of **Two-Way Radio Communication** guarantees successful transmission every time with a beep prompt performed for confirmation purpose. In addition, **Dual Frequency Hopping** helps to avoid any possible interference from the external world and **Code Encryption** secures the data code from copying by evildoer.

Features:

- Bi-directional Radio Communication
- Dual Frequency Hopping & Code Encryption
- Low profile design
- LED x 2: Power, Transmission and Fault Indicator
- Number of Sensors: 20

Specifications:

- Power: 6V DC 100mA Adaptor
- Back-up Battery: 4.8V 600mA Ni-mH Battery (1.2V x 4)
- Battery life: 24 hours
- Radio frequency available: 868.6375 / 868.6875 MHz Narrow FM
- Range: over 300 meters in open space
- Operating temperature: -10° to 45°C
- Humidity: up to 90% non-condensing
